TOOTHBRUSHING PROGRAM

Introducing our “Brush to Donate” Program

We are passionate about achieving the best for our patients.

Orthodontic treatment creates a unique environment. It provides us with the privilege of seeing our patients regularly over an extended period of time that often coincides with their greatest changes as they grow and develop into young adults. We have always been focused on oral care providing education, products and feedback during orthodontic treatment, as we believe that health and wellbeing should be a focus integrated into daily living for our younger generation.

We are also passionate about giving back to our community.

With this in mind we are introducing a program whereby our patients are not only doing the right thing by themselves but also for the community, simply by maintaining great oral care during their treatment.

For every “A” our patients receive as their oral hygiene score, we will donate \$1 to the charities we are supporting. Involving our patients in choosing what project to support both now and in the future, allows us the opportunity to achieve healthy habits, beautiful orthodontic results and a mutual goal of supporting our community and those in need.

“Initiating healthy habits
for a lifetime is our
priority for our patients”
